HARVESTING ICE.-The Silver State

says: Paul Laveago and Henry Busch have about filled their ice houses with crystal blocks from the Humboldt, and others are preparing to lay in their supplies. The ice is the thickest and clearest that has formed on the Humboldt here for years, the first condition being due to the very cold weather, and the other to the very dry weather.

CUTTING ICE .-- The Truckee Republi-Can says:

Laboring men are scarce in town, every one being out on the ice ponds and hard at work. The Summit Ice Co. at Prosser Creek commenced cutting in earnest to-day and is biring every man it can get. They have 12-inch ice which is thickening every night. The Mountain Ice Co. has been cutting for several days and have 12 to 14 inch ice, The ice on the other pond runs from 10 to 12 inches thick and will start to cutting to-morrow or the next day. Monwill see every company hard at work. The weather for the past few o'clock P. M., sharp. It is the duty of every days has been propitious for the ice member to be present. H. P. BROWN. men and if the cold weather continues for a week, the largest crop ever cut on the Truckee river will be harvested. A big crop of ice means lots of money to laboring men during the season of harvest and plenty of money in circulation. It also means that a large number of men will be employed next Summer in shipping it and this is a great help to the community. Let us boom the ice business for all it is worth.

SALE OF RANCHES.—The Silver State has this:

James MoIntosh, of Placer county, California, has purchased the ranches of Eugene Silva and H. Wairen in Paradiss Valley. Mr McIntosh thinks the programme of exercises for the enter-boom, which has given a fictitious tainment at the M. E. Church, on Storra value to worthless land in California, will strike Nevada next year.
